

MISSION STATEMENT

Each student's spiritual and moral development is central to the work of the whole Academy. We promote those genuine Christian values which develop our young people into tolerant, respectful, industrious, successful and good citizens and provide the preparation for life in a modern, diverse and sometimes challenging society.

This is a modern school with traditional values. We strive to create a harmonious and caring ethos, embracing the cultural diversity of our school community

The Academy's Mission promotes the academic and personal development of each member of its community, both students and staff alike.

We serve Christ in each other to the Glory of God and Service of all.
